WHAT TO GROW IN

Mamelodi

City of Tshwane, Gauteng · Highveld & Midlands

-25.7130, 28.3653 · 1,295 m above sea level

> Highveld & Midlands climate: most rain falls in summer, with dry winters (about 707 mm a year). Expect about 4 frosty nights a year; plant frost-tender crops after 1 August. Soils here are typically slightly acidic (pH 6.0) and sandy clay loam.

About this report. FarmBoss models one area of about 1 km² around this point. Climate: CHELSA 1981–2010, corrected to TerraClimate 1991–2020. Soil: ISRIC SoilGrids. Terrain: Copernicus DEM. Crop requirements: South African Department of Agriculture production guidelines and other sources cited on each crop page. Your own garden can differ: microclimate, shade and soil vary over short distances, so a simple soil test is always worth it.
